

Transferring a Vehicle into a Trust

If your vehicles are 2000 or newer, you will sign the back of the titles over to your trust. Although the vehicles will be titled in just your Trust's name, your name can still appear first on your registration as Trustee only (no personal ownership) so that you can keep your birthday month as your month of registration expiration and vehicle inspection.

In order to get this done, you'll need to bring the following:

- Your titles to the vehicles,
- Your legal papers naming the actual Trust name and trustees,
- Your driver's license,
- The current mileage on the vehicles
- Your current registrations to the vehicles.

The cost should be \$2.00 for the Town and \$25.00 for the State for each title as long as your vehicles are currently registered and we only need to add the Trust name 2nd on the registration.
